- LinkedIn

TECHNICAL SKILLS

- Languages:** Dart, Kotlin, Java
- Frameworks:** Flutter, Jetpack Compose
- Architecture Patterns:** MVVM
- Tools:** Android Studio, Firebase, UXCam, Git, JIRA, CI/CD Pipelines, Twilio, Retrofit, REST APIs
- UI/UX:** XML, Jetpack Compose, Figma

EDUCATION

- Master of Computer Applications (MCA)**—Shri Ramswaroop Memorial University (SRMU), Barabanki, U.P.
- Bachelor of Science (BSc)**—Chhatrapati Shahuji Maharaj University, Kanpur
- 10+2**—PN Saigal Inter College (UP Board)

PROFESSIONAL SUMMARY

Skilled and results-driven Flutter and Android Developer with 1+ years of hands-on experience in building robust, scalable, and user-centric mobile applications. Proficient in Dart, Kotlin, and UI/UX implementation using Figma designs. Strong expertise in integrating third-party APIs, state management, and architecture patterns like MVI. Demonstrated ability to solve problems efficiently and deliver high-quality products on time.

WORK EXPERIENCE

IPH Technologies, Lucknow

APR 2024 - PRESENT

Software Engineer (Flutter & Android Developer)

- Developed and maintained mobile applications using Flutter and native Android.
- Collaborated with cross-functional teams to integrate APIs, refine UX, and troubleshoot issues.
- Actively contributed to app architecture decisions and performance optimization.
- Mentored Flutter developer trainees, guiding them on UI implementation, API integration, and best coding practices.
- Led the end-to-end development of the “mEinstein” Android application, managing architecture, design, and delivery using MVI and Jetpack Compose.

PROJECTS

Flutter Projects

Care Concierge - Ride Booking App

- Integrated Geolocation API for real-time location tracking and routing.
- Redesigned the complete user interface as per Figma mockups.
- Ensured a smooth booking experience with a responsive and modern UI.

iResident - Housing Services Platform

- Implemented UXCam for behavioral analytics and performance insights.
- Integrated 2-step verification using Twilio for phone and email authentication.
- Overhauled the existing UI, aligning with Figma designs for better user engagement.

Carecart - eCommerce Shopping App

- Integrated UPC barcode scanning functionality for product lookup and inventory.
- Resolved multiple UI/UX issues, improving app usability and consistency.

Android Projects

mEinstein - Data Trading Platform

- Designed and developed the app from scratch using Kotlin and Jetpack Compose.
- Followed MVVM architecture to manage state and improve maintainability.
- Enabled secure and efficient data transactions between users.

One Wire - News Aggregator App

- Worked with Push Notifications for real-time news updates.
- Developed clean and intuitive UIs using XML layouts and Kotlin.
- Focused on performance and user experience optimization.
